Sea Grant to expand DIVERSITY, EQUITY AND INCLUSION

Sea Grant requires talented and committed teams working together to build innovative solutions that can be shared with a broad community. An essential component of these teams is the full inclusion and participation of individuals from a broad diversity of backgrounds, who bring a range of perspectives, values, and tools to bear on major scientific problems.

Sea Grant is committed to building inclusive research, extension, communication and education programs that serve people with unique backgrounds, circumstances, needs, perspectives and ways of thinking and learning.

The Sea Grant network has developed a 10-year vision plan for expanding diversity, equity and inclusion within its workforce and in all its programs and services.
